Mohamad Feras Harah

Software Engineering Student — available now for a 2026–27 industrial placement

Belfast, Northern Ireland · feras07hrh@gmail.com · ferasharah.com · linkedin.com/in/feras01440 · github.com/Feras01440

PROFILE

Software Engineering student at Queen's University Belfast (placement pathway, graduating 2028), available now for a 2026–27 industrial placement. I build software that gets used: an e-commerce store for a real local business, and database-driven team games with account, save, and analytics systems. Trilingual (Arabic, English, Turkish), used to balancing study with real work, and quick to turn feedback into better results.

EDUCATION

Queen's University Belfast — BSc Software Engineering with Placement Sept 2024 – Jun 2028 (expected)

- Two years completed; industrial placement year 2026–27.
- Modules include: Software Engineering & Systems Development, Data Structures & Algorithms, Programming, Data Driven Systems, Introduction to Cyber Security, Fundamentals of Maths for Computing, Professional & Transferable Skills.
- Member of the Queen's Robotics Club.

St Patrick's College, Dungannon — A Levels 2022 – 2024

- Digital Technology (A), Arabic (A*), Mathematics (B), Software Systems Development (B).

Drumglass High School — GCSEs 2020 – 2022

- Including Arabic (A*), Occupational Studies (A), Mathematics (B), ICT (B).

PROJECTS

Basha Pantry — online store for WoodHouse Groceries 2026 · client project, in progress

Shopify · e-commerce · product data

- Building a real storefront for a local grocery business selling American, Asian, and African products.
- Turning hundreds of physical products into a clean, professional catalogue: consistent naming, categories, photography, and product details.

ReignFall — database-driven text-adventure web game 2024–25 · team of 6 · CSC1034

JavaScript · HTML & CSS · SQL · JSON

- Account system with salted, SHA-256-hashed passwords and expiring session tokens, tested against SQL injection with sqlmap.
- Autosave and manual saves that rebuild complete game state on load: session, allies, four-slot inventory with stat effects, and progress logs.
- Score, reputation, and battle metrics feeding a global analytics page with leaderboards and player search.
- Six accessibility features, including contrast mode and screen calibration.

Greenopoly — educational board game about climate change 2025–26 · team of 6 · SE project

C++ · SQL

- Fully functional, database-backed Monopoly-style game that teaches climate change through play.

Personal portfolio website 2026 · ferasharah.com

Next.js · TypeScript · Tailwind CSS

- Custom-built, fully static site: no trackers or cookies, strict security headers, keyboard and reduced-motion accessible.
- Typed content system that refuses to compile unfinished entries; lint, type, and build checks run on every push.

Earlier builds

2022 – 2024

- Hotel booking system (C# + SQL): add/edit/delete bookings with unique IDs and billing that adapts to room, nights, and guests.
- Geography revision quiz (C#): used by GCSE students at my school to prepare for exams.
- Museum collection database: catalogue of items and their details for easy lookup.

TECHNICAL SKILLS

Languages	Java, C++, C#, Python, JavaScript/TypeScript, SQL, HTML & CSS
Web	Next.js & React, Node.js, Shopify
Databases	MySQL, PostgreSQL, MongoDB (basic)
Tools	Git & GitHub, Visual Studio, VS Code, Eclipse, Linux, Arduino & Raspberry Pi
Practices	Team development (two six-person, year-long projects), secure coding basics, security testing, deliberate AI-assisted workflows

EXPERIENCE

Kainos, Belfast — Insight Programme

2024

- Structured inside view of how a major software company runs: team structures, delivery practices, and technology careers.

PG Chips, Dungannon — General Assistant

Jun 2024 – present

- Weekend service in a fast-paced food business alongside full-time study — reliability, teamwork, and keeping customers happy under pressure.

Amazon Flex — Delivery Partner

- Independent delivery work: route planning, time pressure, and full accountability for every drop.

INTERESTS & EXTRAS

- Queen's Robotics Club — hardware and Arduino/Raspberry Pi tinkering
- Trilingual: Arabic, English, Turkish
- Drone videography and photography
- Football and swimming
- Chess
- Ongoing practice on CodinGame and Codecademy
